steady print Base Rundum-sorglos-Paket für Druckeradmins.

Quick Installation Guide

Schnellinstallationsanleitung | Deutsch

Herzlich willkommen

Dieses Dokument soll Ihnen dabei helfen, eine steadyPRINT-Installation vorzunehmen und Ihre Druckumgebung zu importieren. Befolgen Sie dazu einfach die Schritte der Anleitung. Ausführliche Informationen zur Installation finden Sie außerdem im steadyPRINT-Handbuch unter www.steadyprint.com/benutzerhandbuch/installation.htm.

Systemvoraussetzungen

Nähere Informationen zu den Systemvoraussetzungen finden Sie hier.

SQL Server-Konfiguration (optional)

Der steadyPRINT Webserver kommuniziert unter Verwendung der in diesem Dokument beschriebenen Verbindungsdaten mit dem SQL-Server. In manchen Fällen ist jedoch eine manuelle Anpassung der SQL Server TCP-Einstellungen erforderlich, um eine Kommunikation zwischen dem Dashboard und SQL Server zu gewährleisten.

Version 8.0.0.0 (8.0.7172.1	487)	Q Run		Close	_ 4

Für den Einsatz von steadyPRINT ist die Einrichtung der steadyPRINT-Datenbank notwendig. Diese erfolgt mit Hilfe der mitgelieferten Anwendung CreateSteadyDB.

1 Geben Sie dort den Namen des Datenbankservers oder der Datenbankinstanz an, auf dem die Datenbank einzurichten ist. Wählen Sie anschließend die gewünschte Authentifizierung am Datenbankserver aus:

Windows-Authentifizierung: Verwendet den aktuell angemeldeten Benutzer zur Verbindung mit dem Server. SQL-Authentifizierung: Eingabe eines SQL-Benutzers mit Administratoren - Benutzerrechten (empfohlen).

- 2 Geben Sie den Namen der steadyPRINT-Datenbank an, mit welchem die Datenbank auf dem Datenbankserver erstellt wird. Bei einem Update der Datenbank geben Sie den zuletzt verwendeten steadyPRINT-Datenbanknamen an.
- 3 An dieser Stelle erfolgt die Angabe eines separaten Datenbankbenutzers für die steadyPRINT-Datenbank.

Der Benutzer wird automatisch unter Verwendung des angegebenen Anmeldenamens und Kennworts angelegt. Dieser ist später für die Installation der Programmkomponenten erforderlich. Bei einem Update der Datenbank geben Sie den zuletzt verwendeten Anmeldenamen und das Kennwort an.

Installation der Programmkomponenten

Zur Installation der Programmkomponenten starten Sie das mitgelieferte Installationspaket setup.exe.

TIPP: Installationsort der Management-Komponente

Das steadyPRINT-Team empfiehlt die Installation der Management-Komponente direkt auf dem jeweiligen Druckserver.

Installation des steadyPRINT VPD (Virtual Printer Driver)

Für den Einsatz des steadyPRINT VPD muss auf jedem Druckserver der steadyPRINT Server-Dienst installiert sein. Druckserver ohne diesen Dienst können in Verbindung mit dem steadyPRINT VPD nicht genutzt werden. Wenn auf einem Druckserver VPD genutzt werden soll, muss der steadyPRINT Virtual Printer Driver installiert werden.
