FOLLOW ME PRINTING?
SECURE & FLEXIBLE!

steadyPRINT®
SecurePrint 2.0

steadyPRINT SecurePrint 2.0 is the new standard for mobile and secure printing (also known as *Follow Me Printing* or *Pull Printing*).

Handle sensitive data responsibly and do not leave them unattended in the printer any longer.

Via an NFC-enabled end device (smart-phone or tablet) that is attached to or near the printer, you can release your print jobs via chip, card or smartphone.

*Independent, simple, flexible, cost-effective, **secure**.*

steadyPRINT®

SecurePrint 2.0

Theft-proof bracket available.

Authentication via card...

... or chip.

Release print jobs and start.

INDEPENDENT & FLEXIBLE

✓ Works with any printer manufacturer and printer model.

✓ Authentication with all common chips and cards for access control.

✓ Device for authentication freely selectable.

SECURE

✓ GDPR compliant handling of sensitive documents.

✓ HTTPS secure authentication.

✓ Important factor when implementing CRITIS requirements.

USER-FRIENDLY

✓ Intuitive handling.

✓ Ready-made templates for printer settings.

✓ Simple and central administration via web interface.

✓ One app for Android, iOS and Windows for low maintenance.

COST-EFFECTIVE

✓ Cost-effective alternative to the solutions of other printer manufacturers.

✓ No new acquisitions necessary when exchanging printer fleet.

✓ Cost savings thanks to fast and secure working processes.
